- c) Respiratory Protection.
Not required under normal conditions
- d) Eye Protection.
Safety goggles as required.
- e) Skin Protection.
Standard protective clothing (including gloves) and appropriate skin protection if required.

Stability & Reactivity The material is stable under normal conditions of use.

Conditions to avoid:	None
Materials to avoid:	None
Hazardous decomposition products:	None

Toxicological Information

- a) Inhalation
Not applicable
- b) Eye Irritation
Contact with the eyes will cause irritation.
- c) Skin Irritation
Prolonged and / or frequent contact may cause irritation and dermatitis.
- d) Ingestion
May cause adverse reaction when ingested by people who are allergic to oil based products.

Ecological Information: Product is believed not to be dangerous to the environment with respect to mobility, persistency and degradability, bioaccumulative potential, aquatic toxicity and other data relating to ecotoxicity. The preparation is readily biodegradable.

Disposal Considerations Product is believed not to be dangerous to the environment and so no special disposal method is required. However, the method of disposal should be in accordance with current local authority regulations.

Transport Information UN No: Not applicable.
Sea: Not applicable.
Road / Rail: Not applicable.
Air: Not applicable.

Regulatory Information Not classified as dangerous in Annex 1 of the EEC Directive 67/54

Other Information Under the 1994 COSHH Regulations you are reminded that the user has a legal obligation to carry out a suitable and sufficient assessment of the risks to health, which this material may present under its intended condition of use.

A Product Specification is available on request.

The content and format of this MSDS are in accordance with EC directive 91/155/EEC.
